# Öffnen einer bereits erstellten OpenOffice Datei

The screenshot shows the 'Mitschriftenboerse' application window. The main area displays a form for creating a new file. The form has a title bar with the text 'Mitschriftenboerse'. Below the title bar, there is a large blue header with the text 'barrierefrei'. The form contains several input fields and buttons. The input fields are labeled with the following text: '99999999', 'Michael F. Cowlshaw', 'michael.cowlshaw@protonmail.com', and '123456, 654321, 456321, 162534, 342516'. Below these fields, there are two buttons: 'Create' and 'Reset'. At the bottom, there is a button labeled 'C:\Users\User1\Desk...' and a button labeled 'New File'.

**Zwei langwierige Herausforderungen waren:**

1. Das öffnen einer bereits erstellten OpenOffice Datei.  
(still under construction)
2. Das Darstellen des Filechooser-Objektes
