

Call for Papers: 28th Workshop on Information Systems and Economics (WISE 2017)

We are pleased to announce that the 28th Workshop on Information Systems and Economics (WISE 2017) will be held in Seoul, Korea from December 13-15, 2017 at Le Meridien Seoul Gangnam Hotel. WISE is the premier academic research forum for the discussion of information systems issues through the lens of economics. Presentations consist of research that addresses important business and societal questions with a focus on information technology. The WISE community is open to a wide variety of research methodologies. WISE welcomes new research related to the broad area of information systems that is supported by economic theories and methods.

Submission Guidelines

We invite the submission of extended abstracts (maximum of six (6) pages (double-spaced, 12 pt., Times New Roman font, with 1 inch margins), including text, references, figures and tables) of your work, to be considered for presentation at WISE 2017 (<http://wise2017.com>). Papers should be submitted in PDF format. Only an extended abstract (not a full paper) will be accepted. Submission can be performed via the EasyChair submission portal (<https://easychair.org/my/conference.cgi?conf=wise20170>). If you have not used EasyChair before, you will have to go through a short registration process before submitting your work.

- **Submission Portal Open: May 15, 2017**
- **Deadline for Submissions: August 31, 2017**
- **Notification of Decisions: September 30, 2017**
- **Early Registration Deadline: November 13, 2017**
- **Conference Dates: December 13-15, 2017**

Any given individual should present no more than one paper at the workshop, and the submitting author on each paper should also be the presenting author. In order to minimize repeated exposure of the same paper, we ask that authors not submit their work that has been scheduled for presentation at either ICIS 2017 or WITS 2017.

WISE does not assume copyright over accepted work and does not publish formal proceedings. Accepted extended abstracts included in the program will be posted unless otherwise requested by the submitting author.

WISE 2017 Co-Chairs

- Vidyanand Choudhary (VC) (University of California Irvine)
- Anindya Ghose (New York University)
- Byungtae Lee (Korea Advanced Institute of Science and Technology)
- Dongwon Lee (Korea University Business School)
- Byungjoon Yoo (Seoul National University)
